

*****DRAFT - NOT FOR FILING*****

4725-16-03 Prescribing controlled substances.

A licensed optometrist, who holds a therapeutic pharmaceutical agents certificate [and a valid DEA license number](#) is authorized to employ, apply, administer and prescribe schedule III controlled substances that are determined to be appropriate for use in the practice of optometry pursuant to the following:

- (A) A licensed optometrist who holds a therapeutic pharmaceutical agents certificate [and a valid DEA license number](#) may prescribe the following controlled substances contained in section 3719.41 of the Revised Code within the schedule III narcotics - narcotic preparations category:
- (1) A preparation used for the treatment of pain that contains not more than sixty mg of codeine per dosage unit and also contains other active nonnarcotic ingredients (e.g. acetaminophen or aspirin) in a recognized therapeutic amount.
 - (2) A preparation used for the treatment of pain that contains not more than 7.5 mg of hydrocodone per dosage unit and also contains other active nonnarcotic ingredients (e.g. acetaminophen, aspirin, ibuprofen) in a recognized therapeutic amount.
- (B) The total quantity prescribed shall not exceed a single four-day supply of schedule III controlled substances per episode of illness, injury and/or treatment.
- (C) Controlled substances may only be prescribed by an optometrist if the product's FDA approved labeling contains an indication for pain.

The failure to comply with all or part of this rule constitutes a violation of divisions (B)(3), (B)(9), and/or (B)(13) of section 4725.19 of the Revised Code.
